

DIGITAL PRINTER

UV DTF 30

 Stampante DTF-UV piccolo formato

Small format DTF -UV printer 

UV DTF 30 è una stampante UV DTF con laminazione integrata, progettata per la personalizzazione professionale di transfer. Grazie alla stampa simultanea colore, bianco e vernice, garantisce risultati brillanti e ad alta definizione fino a 1200 dpi

Il sistema all-in-one gestisce alimentazione, stampa, laminazione e riavvolgimento in un unico processo automatico, riducendo tempi operativi e costi di produzione

Compatta, intuitiva e versatile, è ideale per piccole e medie produzioni personalizzate

UV DTF 30 is a UV DTF printer with integrated lamination, designed for professional transfer customisation. Thanks to simultaneous printing of colour, white and varnish, it guarantees brilliant, high-definition results at up to 1200 dpi

The all-in-one system handles feeding, printing, lamination and rewinding in a single automated process, reducing operating times and production costs

Compact, intuitive and versatile, it is ideal for small and medium-scale customised production runs
